

# Yuexin ZHANG

Date of birth: 13 November 1996

Citizenship: Chinese (Passport), Dutch (Residence Permit)

Contact details: Kapteyn Astronomical Institute, University of Groningen,  
P.O. BOX 800, 9700 AV Groningen, The Netherlands

Tel (+31) 684300370 — E-mail yzhang@astro.rug.nl

Webpage: <https://lzzyx96txdy.github.io>

## Education

---

**Kapteyn Astronomical Institute, University of Groningen, NL** Oct 2019–Sep 2023

PhD Candidate in Astronomy. Advisor: Mariano Méndez and Diego Altamirano

**Department of Physics, Fudan University, CN** Sep 2015–June 2019

B.S. (*Honor*) in Physics. Advisor: Cosimo Bambi

**Hamburg University, DE** Jul 2018

Summer Exchange Student

## Previous Academic Positions

---

**University of Southampton, UK** Feb 2023

Visiting Researcher. PI: Diego Altamirano

**Institute of High-Energy Physics, CAS, CN** Mar 2021–Mar 2022

Visiting Researcher. PI: Shuang-Nan Zhang and Jin-Lu Qu

**Shanghai Astronomical Observatory, CAS, CN** Jun 2019–Sep 2019

Summer Visiting Student. PI: Wenfei Yu

## Honors and Awards

---

NWO Rubicon Fellowship ( $\sim 150,000$  EUR) 2023–2025

*“New light on the origin of X-ray variability in Galactic accreting black holes”*

CSC and UoG Joint Scholarship ( $\sim 100,000$  EUR) 2019–2023

*“Spectral variability of compact X-ray sources”*

Shanghai Outstanding Graduate 2019

Wangdao Scholar (named after the former president of Fudan) 2019

Fudan’s Undergraduate Research Opportunities Program (10,000 CNY) 2018–2019

*“Testing general relativity using X-ray reflection spectroscopy”*

## Member

---

Insight-HXMT Team 2021–Present

## Observation

---

[1] *Insight-HXMT*, PI: Zhang, 10 ks on GRS 1915+105

## Publications

---

[1] **Zhang, Y.**, Méndez, M., Motta, S. et al. (2023). A systematic study of the high-frequency bump in the black-hole low-mass X-ray binary GX 339–4. *About to submit*.

### Conferences and Talks

---

- |      |   |                |
|------|---|----------------|
| [1]  | The first Vasto accretion meeting, Vasto, IT  | 19–23 Jun 2023 |
|      | <i>“The corona-jet evolution of black-hole X-ray transients MAXI J1535–571 and MAXI J1820+070 (Poster)”</i>   |                |
| [2]  | 10th microquasar workshop, Crete, GR  | 22–26 May 2023 |
|      | <i>“The jet-like corona of black-hole X-ray transient from the HIMS to the SIMS”</i>  |                |
| [3]  | Nederlandse Astronomen Conferentie 2023, Leeuwarden, NL   | 15–17 May 2023 |
|      | <i>“Corona as the energy reservoir for radio jet: a case study of GRS 1915+105 (Poster)”</i>  |                |
| [4]  | NOVA network NW3, Amsterdam, NL   | 19 Jan 2023    |
|      | <i>“The jet-like corona of black-hole X-ray transients from the HIMS to the SIMS”</i>   |                |
| [5]  | 44th COSPAR scientific assembly, Athens, GR   | 16–24 Jul 2022 |
|      | <i>“Corona evolution of MAXI J1535–571 revealed by type-C quasi-periodic oscillations observed with Insight-HXMT”</i>                                   |                |
|      | <i>“The evolution of the high-frequency variability in GRS 1915+105 as seen by RXTE (Poster)”</i>   |                |
| [6]  | Black hole accretion under the X-ray microscope, Madrid, ES   | 14–17 Jun 2022 |
|      | <i>“The evolution of the corona in MAXI J1535–571 through type-C quasi-periodic oscillations with Insight-HXMT (Poster)”</i>                            |                |
| [7]  | China astronomy annual meeting (online), Nanchong, CN   | 2–6 Dec 2021   |
|      | <i>“Mapping the Comptonization region of black holes up to 100 keV through quasi-periodic oscillations in the intermediate state with Insight-HXMT”</i> |                |
| [8]  | 9th China-EU Insight-HXMT video meeting (online), Beijing, CN   | 11–12 Oct 2021 |
| [9]  | The future of X-ray timing, Amsterdam, NL   | 21–25 Oct 2019 |
| [10] | Recent progress in relativistic astrophysics, Shanghai, CN  | 6–8 May 2019   |
